

PROJECT MANAGER

STAM is looking for a **Project Manager** to join its office in **Genoa**, within the Research & Innovation Services team.

MAIN ACTIVITIES

The candidate will be involved in a multidisciplinary team for the development and management of research and innovation projects, starting from the creation of sound Action Plans including technical, operational, timing and financial aspects, through the day-to-day management and monitoring of activities during innovation projects towards the final delivery of results and reporting to the customer.

The resource will be part of international teams involved in collaborative research projects that will lead him/her to travel and make use of his/her skills in an international environment, enhancing the skills of colleagues and the STAM network, which consists of over 1000 research organizations and high-tech companies.

In particular, he/she will be responsible for:

- Managing innovation projects in every aspect: from planning activities and timing, to drafting contracts and the necessary administrative documentation, to monitoring and supporting the different phases of the project, up to the correct completion of all activities planned and the achievement of objectives;
- Identifying possible critical issues, working to resolve them as early as possible, in order to guarantee delivery of the results on time and according to the expected quality standards, promptly reporting the critical issues to the work team and the relevant Business Area Manager;
- Working in both Research & Innovation projects at European level on behalf of STAM, and projects where the main goal will be supporting customers in delivering their results;
- Preparing reports and deliverables in due time in the context of Research & Innovation projects, in cooperation with other team members and project partners;
- Keeping contacts and maintaining relationships with key stakeholders such as project coordinators and other partners, to ensure the best outcomes of current and future projects;
- Participating in events, initiatives, meetings that allow us to promote the activity carried out by STAM or its customers and to acquire new research and collaboration projects with companies, including participation in brokerage events in the context of national and European research and innovation.

REQUIREMENTS

- Degree in Engineering sector;
- Minimum 2 years of working experience - proved experience in Research & Innovation projects and Horizon 2020 / Horizon Europe initiatives is considered as a plus;
- Good skills in Microsoft Office package;
- Good written and spoken Italian and English level;
- Availability to Travel for short/medium period of time;
- Car Driving License valid in EU.

WHAT YOU GET

- Opportunity to work on innovation projects and international teams, being engaged on different activities and increasing skills on cutting-edge technological solutions and applications.
- Possibility to influence from the beginning by working in multidisciplinary teams.
- Constantly engage with the challenges of state-of-the-art and future technologies.
- Enhance your skills and build a career path of excellence.

WORKING LANGUAGES: Italian, English

WORKING LOCATION: Genoa (Italy)

TYPE OF CONTRACT: full time employment

WHY WORKING IN STAM:

STAM is a fast-growing multidisciplinary engineering company, with a team of young talents involved in international projects alongside corporates, SMEs and start-ups in various fields and industrial sectors. The company has been involved in over 1000 projects to date and has an ambitious development plan that requires the constant inclusion of brilliant and eager candidates / and to grow professionally within a dynamic and excellent company.

STAM is a reality that puts its talents at the centre and enhances their skills and ability to shape the growth of the company, promoting the contamination of disciplines, intrapreneurship, and meritocracy.

This is a very good opportunity to join STAM'S team and to actively contribute to the development of the Research & Innovation Services Area, becoming part of a company that offers great possibilities to learn and grow.

Talent development is a managerial principle at STAM, and we are committed to fostering the growth of our employees with full respect of gender balance.
