

GIS ENGINEER

STAM is currently recruiting a talented and enthusiastic GIS Engineer to join its office in Rome, within the Aerospace and Defence team.

ACTIVITIES:

By joining the STAM Defence team, you will have the exciting opportunity to work for projects in the Military domain, focused on the Implementation of a Command and Control System (C4ISR).

The figure will be responsible of the GIS solution at direct report of the C4ISR Software Architect.

REQUIREMENTS:

- Bachelor's degree in Computer Science or equivalent.
- 3 Years experience in:
 - Implementation and Configuration of ESRI-ArcGis solutions: Arcgis Enterprise Advanced, ArcGIs Image Server, ArcGis Data Interoperability Server Extensions, ArcGis Defense Mapping Extension.
 - Analysis and Implementation of Customer's requirements in the Command and Control domain.
 - Experience in teamwork to support the integration of the GIS solution.
 - Experience in military domain.
- Good knowledge of the English language and, in particular, in drafting project documentation.

WHAT YOU GET:

- Being part for the GIS solution means you have the opportunity to make a significant impact on the organization's capabilities, particularly in terms of spatial data management, data analysis, and visualization.
- The chance to collaborate with multidisciplinary teams, including software engineers, data scientists, and domain experts, fostering a rich learning and working environment.
- Enhance your skills and build a career path of excellence.

WORKING LANGUAGES: Italian and English.

WORKING LOCATION: Rome.

TYPE OF CONTRACT: Full time

WHY WORKING IN STAM:

STAM is a fast-growing multidisciplinary engineering company, with a team of young talents involved in international projects alongside corporates, SMEs and start-ups in various fields and

industrial sectors. The company has been involved in over 600 projects to date and has an ambitious development plan that requires the constant inclusion of brilliant and eager candidates and to grow professionally within a dynamic and excellent company.

STAM is a reality that puts its talents at the centre and enhances their skills and ability to shape the growth of the company, promoting the contamination of disciplines, intrapreneurship, and meritocracy.

This is a very good opportunity to join STAM'S team and to actively contribute to the development of the Aerospace, Defence and Security Area, becoming part of a company that offers great possibilities to learn and grow.

Talent development is a managerial principle at STAM, and we are committed to fostering the growth of our employees with full respect of gender balance.

THE SELECTION PROCESS:

Please send your CV in English to recruitment@stamtech.com

The received CVs will be evaluated and only the selected candidates will be contacted and invited to a job interview.
