

C4ISR ANALYST – PRINCIPAL ENGINEER

STAM is currently recruiting a talented and enthusiastic professional for a C4ISR Analyst – Principal Engineer to join its office in Rome, within Aerospace and Defence team.

**ACTIVITIES:**

By joining the STAM Engineering Solutions team, you will have the exciting opportunity to work for a recently acquired project in the Military domain, focused on the Implementation of Command, Control, Communications, Computers (C4) Intelligence, Surveillance and Reconnaissance (ISR) solutions.

The figure will lead the design of the C4ISR Software solution.

**REQUIREMENTS:**

- Bachelor's degree in Computer Science or equivalent.
- 6+ Years experience in:
  - Design of C4ISR solutions.
  - Analysis and Implementation of Customer's requirements in the Command and Control domain.
  - Experience in managing key suppliers that compose C4ISR solutions.
  - Experience in integrating C4ISR Software solutions, particularly in the following technological areas:
    - situational awareness;
    - battlefield simulation;
    - message handling.
- Experience with products from the Systematic suite: e.g. SITAWARE.
- Good knowledge of the English language and, in particular, in drafting project documentation.

**WHAT YOU GET:**

- The opportunity to engage in cutting-edge development in defence sector.
- Your work will directly impact the organization's ability to gather, process, analyze, and disseminate critical information for decision-making in defense and security operations. This can have significant strategic implications for the organization's success.
- Enhance your skills and pave the way for a prosperous career journey.

**WORKING LANGUAGES:** Italian and English.

**WORKING LOCATION:** Rome.

**TYPE OF CONTRACT:** Full time

**WHY WORKING IN STAM:**

STAM is a fast-growing multidisciplinary engineering company, with a team of young talents involved in international projects alongside corporates, SMEs and start-ups in various fields and industrial sectors. The company has been involved in over 600 projects to date and has an ambitious development plan that requires the constant inclusion of brilliant and eager candidates and to grow professionally within a dynamic and excellent company.

STAM is a reality that puts its talents at the centre and enhances their skills and ability to shape the growth of the company, promoting the contamination of disciplines, intrapreneurship, and meritocracy.

This is a very good opportunity to join STAM'S team and to actively contribute to the development of the Aerospace, Defence and Security Area, becoming part of a company that offers great possibilities to learn and grow.

Talent development is a managerial principle at STAM, and we are committed to fostering the growth of our employees with full respect of gender balance.

**THE SELECTION PROCESS:**

Please send your CV in English to [recruitment@stamtech.com](mailto:recruitment@stamtech.com).

The received CVs will be evaluated and only the selected candidates will be contacted and invited to a job interview.
