

SYSTEM ENGINEER

STAM is currently recruiting a talented and enthusiastic System Engineer to join its office in Genoa (Italy), within the Defence team.

ACTIVITIES:

By joining the STAM Engineering Solutions team, you will have the exciting opportunity to work for projects in the Military domain, focused on the Implementation of System Engineering activities.

The figure will be part of the Engineering Team to support the system requirement and design phase in R&D and Industrial project.

REQUIREMENTS:

- Bachelor's degree in Electronic Engineer or Computer Science or equivalent.
- 2 Years experience;
- Requirements analysis and specification;
- System design architecture and integration;
- Knowledge of testing and validation activities;
- Knowledge of configuration management;
- Good knowledge of the English language and, in particular, in drafting project documentation.

WHAT YOU GET:

- Opportunity to work on innovation projects, being engaged on different activities and increasing skills on cutting-edge technological solutions and applications;
- Possibility to influence from the beginning by working in AGILE and multidisciplinary teams;
- Constantly engage with the challenges of state-of-the-art and future technologies;
- Enhance your skills and build a career path of excellence.

WORKING LANGUAGES: Italian and English.

WORKING LOCATION: Genoa.

TYPE OF CONTRACT: Full time

WHY WORKING IN STAM:

STAM is a fast-growing multidisciplinary engineering company, with a team of young talents involved in international projects alongside corporates, SMEs and start-ups in various fields and industrial sectors. The company has been involved in over 600 projects to date and has an

ambitious development plan that requires the constant inclusion of brilliant and eager candidates and to grow professionally within a dynamic and excellent company.

STAM is a reality that puts its talents at the centre and enhances their skills and ability to shape the growth of the company, promoting the contamination of disciplines, intrapreneurship, and meritocracy.

This is a very good opportunity to join STAM'S team and to actively contribute to the development of the Aerospace, Defence and Security Area, becoming part of a company that offers great possibilities to learn and grow.

Talent development is a managerial principle at STAM, and we are committed to fostering the growth of our employees with full respect of gender balance.

THE SELECTION PROCESS:

Please send your CV in English to recruitment@stamtech.com

The received CVs will be evaluated and only the selected candidates will be contacted and invited to a job interview.
