

## **JOB TITLE:** System Engineer

*STAM is currently recruiting a talented and enthusiastic System Engineer to join its office in Rome or in Genoa (Italy), within the Defence team.*

### **ACTIVITIES**

By joining the STAM Engineering Solutions team, you will have the exciting opportunity to work on projects in the Military domain, focusing on the implementation of System Engineering activities, ranging from C4ISR Systems, to M&S Systems, passing through land and naval combat systems.

The candidate will be part of the Engineering Team to support the system requirements and design phase in Industrial and R&D project.

### **REQUIREMENTS**

- At least, Bachelor's degree in Electronic, Telecommunication, Naval Engineer or Computer Science or equivalent.
- 1-2 Years experience (but not mandatory) in:
  - Requirements analysis and specification;
  - Analysis and Implementation of Customer's requirements;
  - System design architecture and integration;
- Knowledge of testing and validation activities;
- Good teamworking, communication and interpersonal skills;
- Critical thinking, problem-solving and attention to the detail;
- Good knowledge of the English language and, in particular, in drafting project documentation.

### **WHAT YOU GET**

- *Opportunity to work on innovation projects, being engaged on different activities and increasing skills on cutting-edge technological solutions and applications;*
- *Constantly engage with the challenges of state-of-the-art and future technologies;*
- *Enhance your skills and build a career path of excellence.*

**WORKING LANGUAGES:** Italian and English.

**WORKING LOCATION:** Rome or Genoa.

**TYPE OF CONTRACT:** Full time.

## **WHY WORKING IN STAM**

STAM is a fast-growing multidisciplinary engineering company, with a team of young talents involved in international projects alongside corporates, SMEs and start-ups in various fields and industrial sectors. The company has been involved in over 1000 projects to date and has an ambitious development plan that requires the constant inclusion of brilliant and eager candidates and to grow professionally within a dynamic and excellent company.

STAM is a reality that puts its talents at the centre and enhances their skills and ability to shape the growth of the company, promoting the contamination of disciplines, intrapreneurship, and meritocracy.

This is a very good opportunity to join STAM'S team and to actively contribute to the development of the Aerospace, Defence and Security Area, becoming part of a company that offers great possibilities to learn and grow.

Talent development is a managerial principle at STAM, and we are committed to fostering the growth of our employees with full respect of gender balance.

## **THE SELECTION PROCESS**

Please send your CV in English to [recruitment@stamtech.com](mailto:recruitment@stamtech.com) .

The received CVs will be evaluated and only the selected candidates will be contacted and invited to a job interview.
